EDUCATION

Sichuan University 09/2016-06/2020
Bachelor of Science in Economics | Major: Financial Engineering | **GPA: 3.84/4.00**
Coursework: Database Technology, Stats Modeling, Computer Network and Application, Data Structure and Algorithm
University of California, Los Angeles 08/2019-09/2019
Coursework: Probability Theory, Statistical programming with R | **GPA: 4.0/4.0**

PROFESSIONAL EXPERIENCE

Survey and Research Center for China Household and Finance 06/2019-08/2019
Intern Staff/Data Processing Analyst/Team Leader

- Organized the team to complete the data processing and analysis of hundreds of samples per day
- Wrote and maintained STATA programs to complete preliminary data cleanup
- Trained five new employees to use STATA to complete daily data processing and helped guide their daily work
- Eventually completed the tracking processing of more than 30,000 data samples

Prudential Hong Kong 01/2018-02/2018
Intern Staff/Workshop Leader

- Led the team to win the investment, product launch contest
- Managed data processing and analysis in finishing market analysis/SWOT analysis report
- Motivated the team to create a business plan for the development of the insurance market in mainland China

RESEARCH EXPERIENCE

Analysis of The Effect of Urban Residents Insurance on Chinese Family Consumption using DID method based on CFPS Microdata 05/2019-06/2019
National Undergraduate Curricular Academic Science and Technology Works

- Analyzed the panel data for household consumption using STATA
- Conclusion: Promulgation of urban medical insurance has a greater effect on growth of household non-medical consumption

Comparative Analysis of Higher Education Levels in China's Provinces Based on Cluster Analysis and Factor Analysis 03/2019-04/2019
Empirical Analysis Course, Advised by Xiaolan Chen, Associate Professor, School of economics

- Pre-Processing data and cluster analysis and factor analysis using STATA
- Took the output of higher education as in indicator, divided each province into four grades, and the educational resources, student qualities and regional differences between the various levels were analyzed
- Concluded that the influencing factors of the differences include economic conditions, regional development, etc.

China Undergraduate Mathematical Contest in Modeling 09/2018
Leader/Paper writer/Algorithm design

- Used Genetic Algorithm to optimize and solved RGV dynamic scheduling problem with MATLAB
- Responsible for the writing and modification of modeling paper using LaTeX

PROJECTS

Personal Website Development 05/2020

- Use React and React Router to build a multi-page website and deploy directly to the GitHub homepage through gh-pages
- Use Bootstrap4 framework as CSS basis to complete page layout and settings

Video/picture search page development 06/2020

- Use React to develop, use the axios library to request Google API data, and realize the search, display and playback of YouTube videos
- Use React to develop, use the axios library to request Unsplash.com API, get the image data of the website and display it

Educational Administration Course Selection System 11/2019

- Wrote the implementation of SQL statement with MySQL
- Used VB.NET to complete the development of the front-end page for the database

Compress/decompress Files Using Huffman Coding 11/2018

- Built Huffman tree with minimum heap and store it in tree-info file, get coding and complete file compression
- Read the tree-info file to restore the Huffman encoding tree, and then read the compressed file for decompression
- Used C++ to write, maintain and test the code independently and complete the design of user interface and operation guide

CAMPUS LEADERSHIP

"Challenge Cup" National College student Business Plan Competition 10/2017-01/2018
——Second Hand Book Transaction Intermediary in P2P Mode Based on Campus
Leader/Project Design/Data Analysis

- Led the team to complete the construction of the project
- Completed the processing and visual analysis of data using R programming

Practice of Winter Vacation Social Activities in Sichuan University 01/2017-02/2017
Organizer

- Led a team of 20 people to return to the high school alma mater during the winter vacation to promote Sichuan University, with more than 300 active participants
- Awarded the title of "excellent team" of Sichuan University and won the Academy Practice Answers Competition (2nd place)

College Welcome Party Night 10/2016-12/2016
Host/Program Director/Choreographer

- Organized and hosted the major event
- Directed an acapella choir show and successfully performed in front of more than 300 audiences

PROFESSIONAL SKILLS

- **Technical Skills**: C++, Java, HTML, CSS, Javascript, NodeJS, Stata, Python | SQL | LaTeX | Microsoft Office
- **English Proficiency:** CET-6:545, TOEFL:107(29,28,25,25)

AWARDS

Sichuan University First Class Scholarship 2017-2018
Awarded to students with exceptional overall results of the year, university level

The Third Prize of The Chinese Mathematics Competitions 10/2018
Awarded to contestants who performed well in the calculus competition, provincial level

The Third Prize of National English Competition for College Students 05/2018
Awarded participants who achieved excellent performance in English test, national level

The Third Prize of The Mathematics Competitions in Sichuan University 05/2018
Awarded to contestants who performed well in the calculus competition, university level
